

RingCentral Bring Your Own Carrier

**Migrate to the cloud
in a phased approach.**

Your business communications should revolve around your unique requirements. At RingCentral, we've gone to great lengths to deeply understand our customers' complex needs. In response, we built [Bring Your Own Carrier](#) (BYOC) to support [larger enterprise customers](#) as they encounter a number of complexities where this approach can help.

BYOC gives you an extra level of control over your transition to cloud communications. In the BYOC model, you supply your own telephony access by using your carrier(s) of choice with the [RingCentral MVP app](#).

Benefits

Migrate your way

Migrate to the cloud through a phased approach vs rip and replace. Get ultimate flexibility for your cloud migration needs.

Improve global coverage

Extend your global coverage by using your existing carrier with your cloud solution. Power your [RingCentral MVP](#) app with phone numbers in any country you have a carrier relationship.

Avoid early termination fees

Give your users modern tools even if you have inflexible carrier contracts. Avoid early termination fees.

Leverage your current infrastructure

Use your current PSTN/PBX telephony investments with RingCentral.

Options for regional compliance

Enjoy more choices for regions that are highly regulated.

Maintain full control

Take control of connectivity options, call routing, calling plans, and more.

Avoid number porting

Keep your phone numbers with your current carrier.

Minimize toll charges

Keep your previously negotiated per-minute calling rates.

Streamline end-user experience

Message, video, and phone from a single app.

Make your end-user experience seamless

Use a single app for video meetings, messaging, task management, notes, whiteboarding, voice communications and more.

Why RingCentral for Bring Your Own Carrier (BYOC)?

Cloud UCaaS experts

We are consistently awarded as leaders in cloud UCaaS by analysts, investors, and customers alike by delighting users for 20+ years.

Global reach

Bring Your Own Carrier is available in over 44 countries, meeting your business growth as it happens.

Next-gen analytics

Get IT and line-of-business analytics that go far beyond troubleshooting and call quality reports.

Security innovation

Trusted by top global brands, we are a reliable and secure cloud-based UCaaS provider. We are SOC 2, SOC 3, GDPR, and HIPAA compliant and received dozens of globally recognized security certifications including UK Cyber Essentials Plus and HITRUST.

Powerful unified app

Unlock the power of a deeply integrated message, video, and phone experience for all the ways your teams work. Simplify collaboration across devices, modalities, and working styles.

Fast track your cloud adoption with RingCentral BYOC

How to get started with BYOC

1. Supply your own PSTN/PBX access. Ensure you have this before you get started.
2. Continue to manage your own carrier relationship. Ensure you have a carrier in place in regions where you'd like to use BYOC.
3. Manage your own session border control (SBC) gateways
4. Ensure you have a great internet connection.
5. Contact your RingCentral account executive to get started on your BYOC journey.

RingCentral BYOC is certified with industry-leading SBC gateways from [AudioCodes](#) and [Ribbon Communications](#).

*Eligibility restrictions apply for BYOC. Contact your RingCentral account executive for more details.

For more information, please contact a sales representative. Visit ringcentral.com or call 855-774-2510.

RingCentral, Inc. (NYSE: RNG) is a leading provider of business cloud communications and contact center solutions based on its powerful Message Video Phone™ (MVP™) global platform. More flexible and cost effective than legacy on-premises PBX and video conferencing systems that it replaces, RingCentral empowers modern mobile and distributed workforces to communicate, collaborate, and connect via any mode, any device, and any location. RingCentral offers three key products in its portfolio including RingCentral MVP™, a unified communications as a service (UCaaS) platform including team messaging, video meetings, and a cloud phone system; RingCentral Video®, the company's video meetings solution with team messaging that enables Smart Video Meetings™; and RingCentral cloud Contact Center solutions. RingCentral's open platform integrates with leading third-party business applications and enables customers to easily customize business workflows. RingCentral is headquartered in Belmont, California, and has offices around the world.
