

RingCentral Contact Center™ overview

RingCentral is the industry leader in cloud contact center software, enabling organizations to provide exceptional customer experiences through connected, empowered, and engaged employees.

Combining the best in UCaaS and CCaaS telecommunications, suitable for organizations of all sizes, RingCentral Contact Center meets the needs of modern businesses to embrace a future-fit technology stack, enable remote working, reduce costs, and exceed skyrocketing customer expectations.

Capabilities such as real-time reporting, advanced workforce management, and AI-based sentiment analysis, together with a vast suite of integrations, give businesses the tools they need to greatly improve their contact center performance.

Key benefits

- Increased agent productivity with an easy-to-use, all-in-one contact center solution.
- Empowered and engaged agents deliver faster, more personalized customer experience, leading to faster time to resolution and higher CSAT scores.
- Technology managers get peace of mind thanks to RingCentral's financially backed 99.99% reliability SLA and multiple layers of enterprise-grade security.
- Agents are happier because they have the tools they need to do a great job.

Key features

- Deep integration with the award-winning RingCentral MVP™ platform for high-quality, low-cost telephony and agent collaboration.
- Skills-based omnichannel routing across voice and digital channels.
- A powerful API suite to fit into any environment with prebuilt integrations to leading CRM systems including Salesforce, Microsoft Dynamics, and ServiceNow.

Detailed features

Smart routing

Reduce costs and enable more efficient and personalized customer interactions.

- Skills-based routing connects customers to the agent who can help them best.
- Data-driven routing allows you to use information gathered from the interactive voice response (IVR) or back-end CRM system to identify the best possible agent for every interaction.
- Screen pops from your CRM system arm your agents with the right data at the right time.

Analytics, reporting, and supervisor tools

Get insights to maximize agent performance and provide better customer service.

- Widget-based dashboards provide real-time and historical reporting.
- Call recording and monitoring make it easier for supervisors to manage teams.

Automated outbound capabilities

Increase your agents' productivity with predictive dialer technology and comply with government regulations through intelligent call suppression features.

- Blended inbound and outbound calling capabilities handle fluctuating call volumes by automatically switching outbound agents to inbound queues when volumes spike and back to outbound when service levels are met.
- Auto dialer can be used for both agent and agentless calling campaigns, increasing agent productivity while staying within compliance.

Workforce engagement management

A full workforce optimization suite helps you get valuable insights and improve efficiency.

- **Workforce management** optimizes scheduling.
- **Quality management** maximizes agent performance via coaching and feedback.
- **Speech and text analytics** uncover customer hot buttons and hidden opportunities.
- **Customer survey application** provides deeper insights into what your customers think.
- **Performance management** features one dashboard to provide insight across all systems and gamification to drive agent performance.

Flexible, reliable, and secure

Based in the cloud, RingCentral Contact Center allows you to easily scale your staffing up or down as needed. Agents can work from nearly anywhere even if disaster strikes your headquarters, and automatic failover capabilities allow you to continue running if your primary data center goes down.

RingCentral Contact Center guarantees 99.99% uptime and safeguards your data with compliance to PCI 1 and GDPR, as well as adherence to several other key reliability standards.

Find the perfect fit with our smart packaging options

RingCentral Contact Center offers three base packages to help simplify your choice. Each can be tailored with optional features, such as speech recognition, customer integrations, workforce optimization, and more.
