

RingCentral for Microsoft Office 365

Save time and boost productivity by seamlessly blending business communications into your Microsoft work environment.

Transform your Microsoft cloud work environment into an enterprise-grade communications hub with RingCentral for Office 365. This integration empowers your workforce with a superior, robust cloud communications solution that is accessible directly from Microsoft Outlook and Microsoft Teams on the web. With all business communications and collaboration features in one place, you and your workforce can be more productive and work more efficiently.

Key features and benefits:

The RingCentral for Office 365 Chrome extension works seamlessly in:

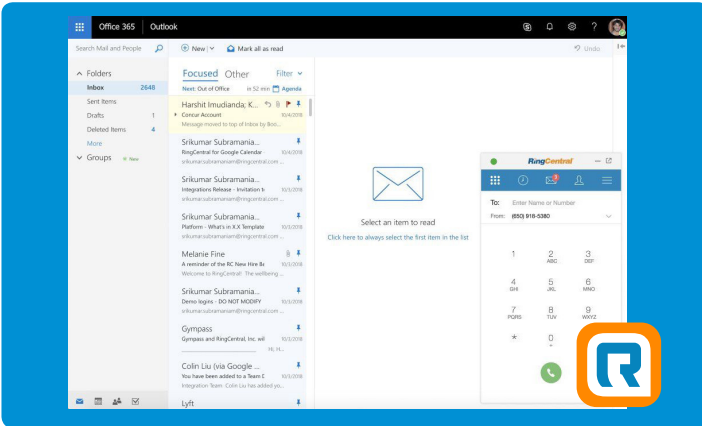

Outlook:

- Minimize the number of applications and programs you need to toggle between to get work done. Make and receive calls, send and receive texts, and view your complete communications history—calls, texts, faxes, and voicemails—all from a single interface.
- Click to dial or click to SMS any phone number that appears in your Outlook mail messages.
- View all RingCentral and Office 365 contacts on one easily searchable screen.
- Make collaboration easier and faster with the ability to schedule RingCentral meetings and audio conferences natively from the Outlook web calendar or from within the app.
- Set your presence status and let your coworkers know when you're busy.
- Use the device of your choice to make and receive calls.
- Remote employees can work from any location and still use their business phone numbers to maintain a single professional identity.

Teams:

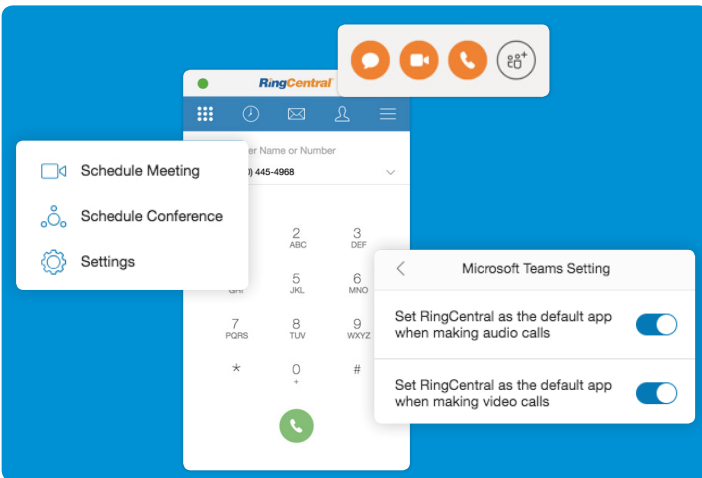

- Make and receive RingCentral calls, send and receive SMS messages, and initiate video and audio meetings in Microsoft Teams direct message conversations.
- Initiate RingCentral video and audio meetings in team chats.
- Set RingCentral as a default for voice calls and meetings while working in Teams.
- Enjoy full RingCentral for Office 365 softphone capabilities in the persistent Chrome extension within Teams on the web.

How it works

Manage and track all business communications in one place

Access key communications features (voice, text, meetings) directly from your Outlook mailbox and Teams interface.

Schedule conferences and meetings

Choose to schedule a RingCentral meeting or audio conference from within the softphone, the Outlook web calendar, or Teams chat.

Set RingCentral as your default to quickly call, SMS, or start a meeting directly from the Teams UI.

System requirements

- RingCentral for Office 365 is available as a Chrome extension to all RingCentral Office® customers.
- An active Microsoft Office 365 account is required.
- Supported browsers include Chrome 69 (or later).
- Windows 7 and above or Mac OS X 10.8 Mountain Lion (or later) are required.
