

RingCentral for Microsoft Outlook®

RingCentral for Outlook creates a powerful best-of-breed solution that gives Microsoft Outlook® the best of both worlds: enterprise-caliber communications—click-to-dial, SMS, combined directory experience, conferencing, and integrated calendaring—integrated into the most popular email client.

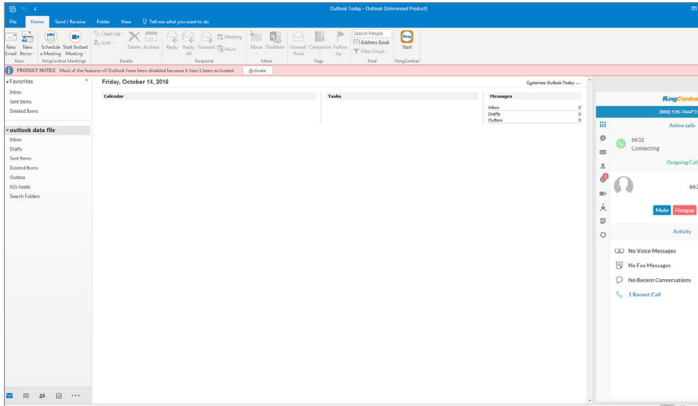

With all of your business communications in one place, you and your workforce can be more productive and work more efficiently.

Features and benefits

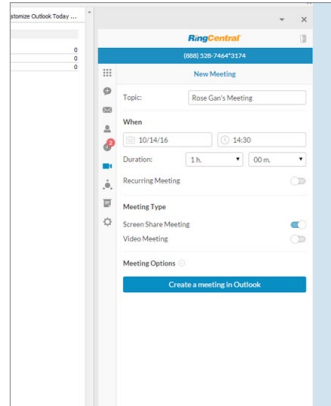

- Make and receive calls directly from Outlook.
- View incoming caller IDs while working within Outlook.
- Send and receive text messages from the Outlook interface.
- View your complete communications history—calls, texts, faxes, and voicemails—from Outlook.
- Schedule a RingCentral meeting or audio conference from within your Outlook calendar.
