

RingCentral for Outlook

Transform Outlook into a robust productivity hub with RingCentral communications and collaboration features.

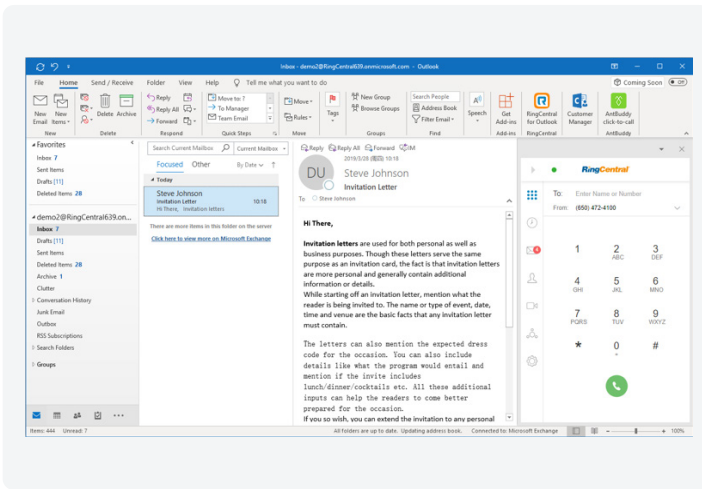

RingCentral for Outlook creates a powerful best-of-breed solution that gives Microsoft Outlook the best of both worlds: enterprise-caliber communications—click-to-dial, business SMS, unified directory experience, audio and video meetings—integrated into the most popular email client. With your business communications in one place, you and your employees can be more productive and work more efficiently.

Features and benefits:

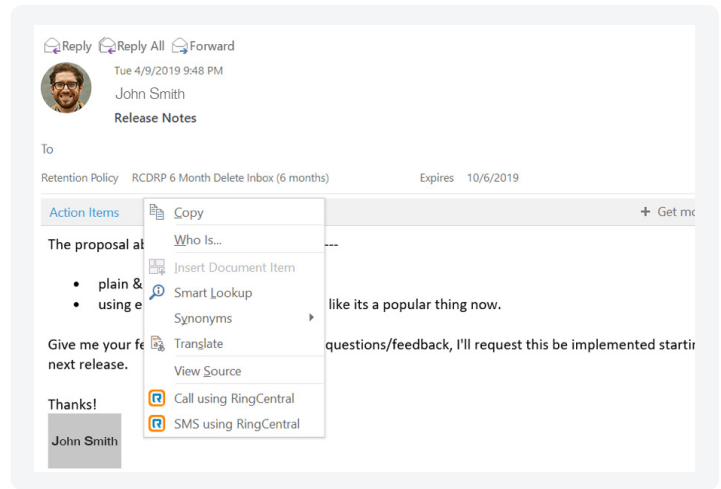

- Make and receive calls, send and receive texts, and view your complete communications history—calls, texts, faxes, and voicemail—all from a single interface.
- Make collaboration easier and faster with the ability to schedule RingCentral Video meetings and audio conferences from a single screen and invite participants seamlessly.
- Easily connect with contacts found in your mail messages and Contact Cards.
- Advanced active call controls: group calling (add up to 10 participants), transfer, flip, mute, and hold.
- View all RingCentral, personal, and Outlook contacts in one easy-to-search screen.
- Receive desktop notifications for incoming calls.
- Customize user settings based on preferences.

How it works

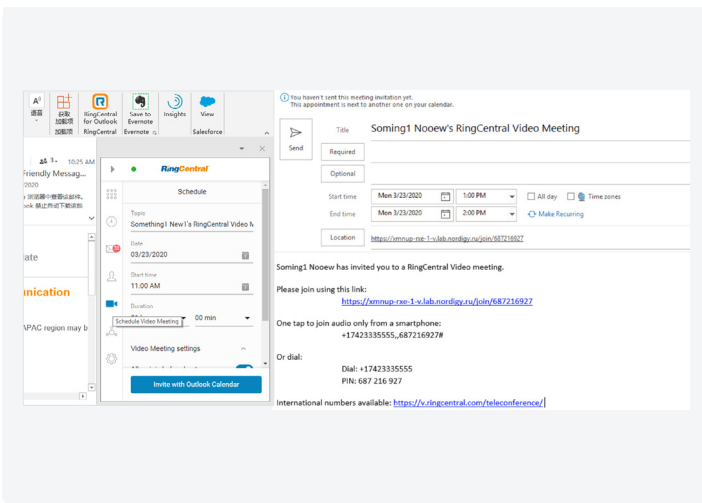

Visit the [RingCentral App Gallery](#) to download the integration. Once installed, RingCentral for Microsoft Outlook integrates contacts and capabilities from RingCentral and Outlook.

Calling using the intuitive dialer accessible in the Outlook UI.

Call or SMS directly from your Outlook email message threads

Schedule or launch a RingCentral Video meeting or audio conference from within the RingCentral softphone.
