

# UNIFY OPENScape DESK PHONE CP205

## DIGITAL WORKPLACE COMMUNICATION AT THE DESKTOP—IT'S VOICE, AND SO MUCH MORE

The OpenScape Desk Phone CP family from Unify brings expanded interoperability, the power of simplicity, as well as the high-quality audio you expect from our devices.

There's no substitute for a voice call when you really need to connect—when time is precious, when you need clarification or immediate decisions, or when everyone needs to be heard, a voice conversation is simply the best choice.

But the communication tool landscape gives users, teams, and now even devices themselves choices in how, what, and when to communicate. The role of voice communication and the desk phone is playing out as workplace digital transformation unfolds.

Unify, together with world renowned product design firm frog design, took a proactive, thoughtful look at the role of the desk phone and its place in the new way to work. What they created balances the core purpose of instant, secure, and reliable voice conversations with modern use cases for a more interoperable, future-proof family of phones, ready for an evolving communication ecosystem.

Based on the key principles of focus, interoperability, intuitiveness, and beauty, the OpenScape Desk Phone CP family of devices brings:

- Streamlined form and function, with redesigned desk phone features
- Rapid onboarding of new employees with easy setup and an intuitive interface
- The secure, high-quality call experience you expect from Unify
- A unique blend of form and function
- Reduced communications bottlenecks with built-in Gigabit Ethernet
- High-definition AudioPresence HD voice technology, so staying in touch sounds great
- Blue Angel Climate Protection Award

## IT'S YOUR COMMUNICATION POINT
