Poly integrated appliances for RingCentral Rooms™

Product IDs by components and regions

RingCentral has partnered with Poly to bring the RingCentral Rooms experience to your conference rooms. With the Poly Studio X30, Studio X50, Studio X70, and G7500 integrated appliances, there's a solution for all meeting room sizes and needs. With the RingCentral software included, users enjoy the same simple and intuitive experience of RingCentral Video in meeting rooms. Poly brings 25 years of investment across audio and 20 years of video and is complemented by the security, reliability, and rich analytics of the RingCentral platform.

Benefits

Easy setup

The Poly appliances are easy to set up from purchase to deployment to activation. Get set up quickly with RingCentral Video features that include one-touch join.

Return on investment

No need to purchase expensive, proprietary equipment to get your video meetings up and running. Poly appliances have a low price point, less points of failure, and responsive support.

Flexible configurations

The Poly portfolio includes four different appliance offerings that work for various room sizes and are flexible for any room layout.

Crisp audio and video quality

Poly appliances include noise block, clear audio, and intelligent camera framing and are combined with RingCentral Video's pristine video experience and quality, providing the ultimate meeting experience.
