RingCentral

RingCentral for Google Chrome Extension

Seamlessly integrate your RingCentral communications and collaboration solution with Google Cloud to create a powerful business communications hub.

The RingCentral for Google Chrome extension makes it easy for your teams to access key RingCentral features without leaving the Google Chrome browser, simplifying workflows and increasing productivity. Easily make RingCentral calls and send SMS messages directly from any web page, schedule RingCentral Video meetings through Google Calendar, and expand the capacity of Google Hangouts to 1,000 participants.

FEATURES

Chrome Browser Softphone

- Access the RingCentral Chrome extension from any web page.
- Click to dial or click to SMS phone numbers within your favorite G Suite applications such as Gmail, Docs, Google Calendar, and the Chrome browser.
- View your complete communications history (voicemails, faxes, and messages).
- Manage inbound call handling settings (send an incoming call to voicemail, forward incoming call, reply to an incoming call with a text message).

- Active call control features include a multi-way call (up to 10 additional parties), transfer, flip, record, and more.
- Combine your RingCentral and Google contacts on one easy-to-search screen.
- Change your presence and view the presence status of all your contacts.
- Receive inbound call notifications on the RingCentral badge.
- Schedule a video meeting and invite with Google Calendar.

Hangouts

Invite as many as 1,000 audio participants to any Google Hangouts with the installed plugin.

Calendar

Schedule and join meetings and Hangouts.

BENEFITS

Seamless integration with Google Chrome
Connecting RingCentral with the web browser you use every day allows you to automate tedious tasks in your workflow for added efficiency and ease of use.
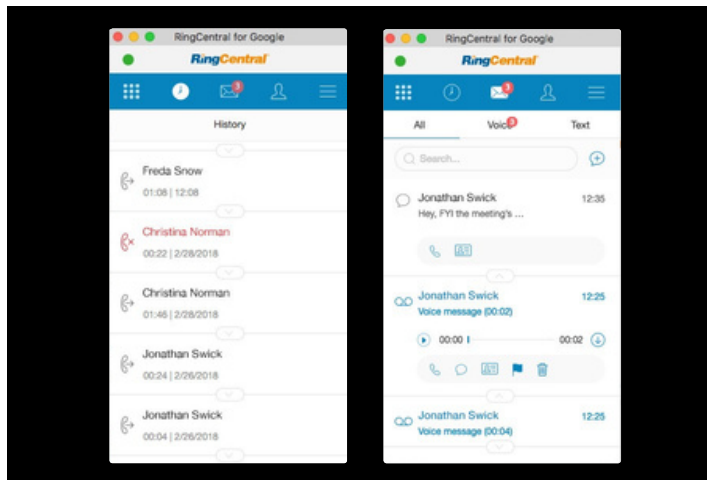

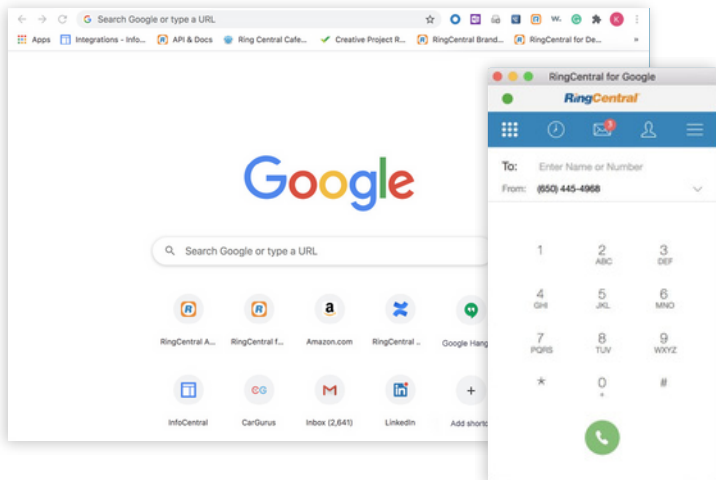

Streamlined business communications
The RingCentral for Google Chrome extension reduces the need for users to turn to other tools while working in their Google applications.

Productive team collaboration
Enhanced Hangouts capabilities and the ability to efficiently schedule and join conferences improves your team collaboration, keeping projects moving forward in a productive way.
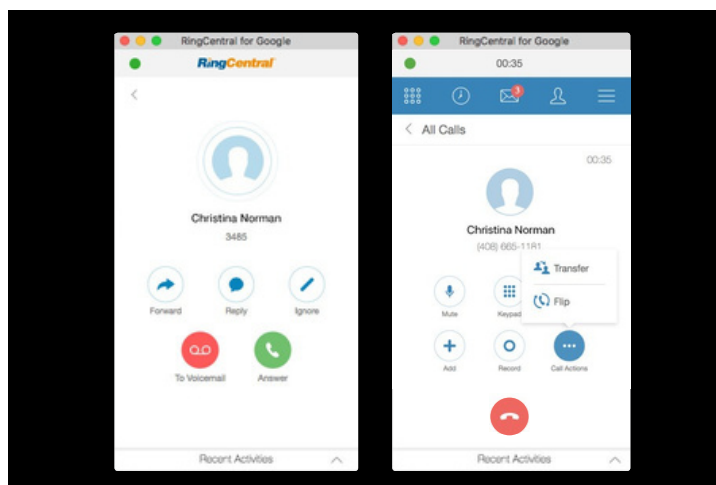

HOW IT WORKS

RingCentral Chrome extension
After adding the RingCentral Chrome extension to your browser from the Chrome Marketplace, click on the RingCentral logo in the extension section of your Chrome browser to open RingCentral. The floating RingCentral Chrome extension will be accessible from all Chrome browser windows and tabs. You can use it to click to dial or click to SMS any phone number on any Chrome browser page.

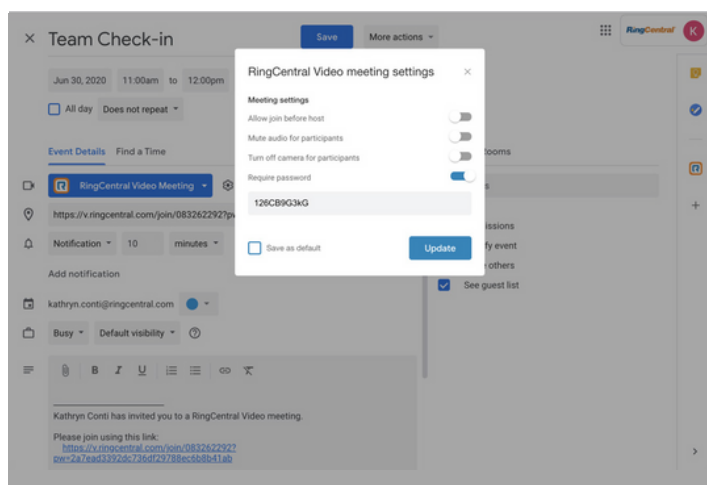

Message hub
You can view your complete communications history, including phone calls, voicemails, faxes, and text messages.

Call controls
Forward incoming calls, reply to incoming calls with a text message, or ignore incoming calls by sending them to voicemail. Live call control features include multi-way call, call record, call flip, and more.

Schedule meetings
Schedule and join RingCentral Video meetings and Hangouts in Google Calendar.
