

RingCentral Office for G Suite Edition

Integrate Google Cloud with RingCentral's cloud communications system to increase your productivity by managing all of your communications without leaving Google.

Starting at just \$15 per month per user, RingCentral Office G Suite Edition comes with everything you need to instantly start using a cloud-based phone system. There is no need to invest in expensive equipment; we even offer free implementation services and 24/7 support for companies that have more than two RingCentral users.

Recommended for
G Suite

Features and benefits

Enhance the professional image of your business, give your company a local presence, make it easy for customers to contact you, and increase your brand recognition with a variety of phone number options to service your business phone system.

- Use RingCentral and the RingCentral for Google Chrome Extension to click to dial, click to SMS, schedule meetings, and more all without leaving Gmail™, Google Calendar™, or your Chrome browser.
- Get up and running in just minutes with RingCentral's intuitive user interface, administrative portal, and free setup support.
- Enjoy enterprise-class communications that support your professional business image, with auto attendant and advanced PBX call handling features.
- Combine your RingCentral and Google contacts in one easy-to-search screen.
- Transfer your existing number, instantly add new local or toll-free numbers and individual lines for your in-office and remote workforce.
- Click any phone number in your Chrome browser and G Suite applications to send texts and make phone calls. All you need is the RingCentral for Google Chrome Extension, an active RingCentral account, and your Chrome browser.
- Manage your Business SMS conversations directly from Gmail.
- Listen to your voicemails directly within Gmail.
- Enjoy top-rated 24/7 live customer support at no extra charge.
