

# RingCentral for Smarsh

Remain compliant in the cloud with automatic data archival into Smarsh.

RingCentral for Smarsh allows users to seamlessly archive their RingCentral app message data to Smarsh via RingCentral Archiver. Firms and businesses that have compliance, open record requests, and other requirements can now leverage RingCentral for Smarsh for meeting recordkeeping, and regulatory needs. RingCentral for Smarsh enables users to manage their RingCentral app message data while remaining compliant and productive in the cloud.

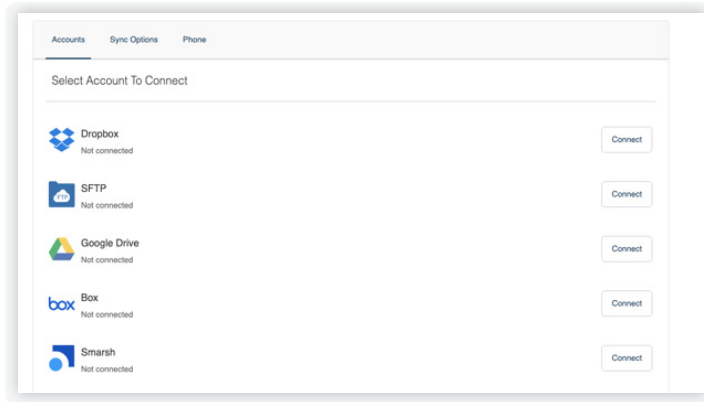

## Features

- Easily search and audit:
  - RingCentral app message data, including people and key words, with the ability to filter by date and time
  - Images, videos, and other attachments sent in a message
  - Special characters and emoticons
- Drill into message data results with the ability to view direct, group, and team communications.
- Store RingCentral app message data in Smarsh for as long as necessary and export it in multiple formats.

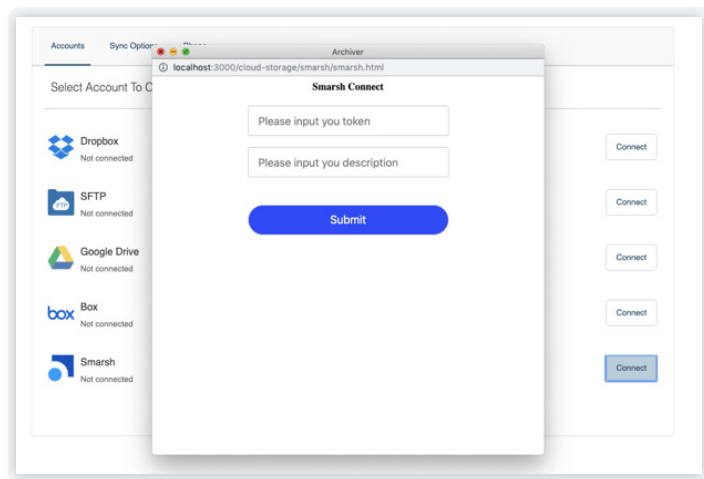

## Benefits

- **Streamlined workflows**  
With Smarsh and RingCentral connected, users can easily utilize ready-to-search message data directly from within Smarsh, so your teams can focus on daily business needs instead of lengthy data searches.
- **Seamless integration with Smarsh**  
Smarsh's data captures are fully compliant, preserving the chain of custody and identifying users across message touch points, so your team can search and audit with ease knowing the data is secure.

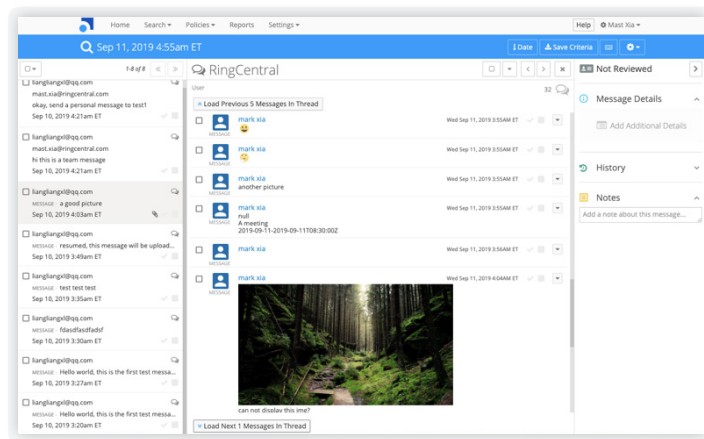

## How it works

The RingCentral admin of your organization can connect Smarsh to RingCentral Archiver via the **Tools** tab in the RingCentral [Service Web](#).

The RingCentral app admin of the RingCentral account can securely connect RingCentral to Smarsh by entering their Smarsh account ID and a label for recognition within Smarsh.

Once connected, the admin can view RingCentral app message data within Smarsh starting from the time RingCentral Archiver is connected to Smarsh. Take notes, view history, and add any additional details on your data all from within Smarsh.

## System requirements

- Must have RingCentral Archiver access to RingCentral Office® Premium and above
- Must have a Smarsh account
- Must be the RingCentral app admin of the RingCentral account
- Browsers supported: Internet Explorer 11+ (Windows 7+), Firefox 46+ (Windows, Mac), Google Chrome 50+ (Windows, Mac), Safari 9.1+ (Mac)
