Yealink® appliances for RingCentral Rooms™

Product IDs by components and regions

RingCentral has partnered with Yealink to bring the RingCentral Rooms experience to your conference rooms. With the Yealink A20 and A30 integrated appliances, there's a solution for small and medium meeting room sizes. Yealink video bars deliver the performance, installation ease, and device management tools you need to enable video for conference rooms of all sizes throughout the workplace. With the RingCentral software included, users enjoy the same simple and intuitive experience of RingCentral's video capabilities in meeting rooms.

Benefits

Easy to set up

The Yealink appliances are easy to set up as all-in-one devices, from purchase to deployment to activation. Get set up quickly, with no cable clutter and with RingCentral video meeting features that include one-touch join.

Flexible configurations

As your business needs change, you can scale the appliances to work across small and medium-sized room configurations.

Engagement with AI-powered camera

Auto-framing, speaker tracking, and noise cancellation enhance the meeting experience by properly framing the meeting room audience and delivering crystal-clear audio.

Meeting experience monitoring

The Yealink meeting experience uses RingCentral's video capabilities, so you can monitor room performance and can push firmware via RingCentral Analytics and room management.

RingCentral, Inc. (NYSE: RNG) is a leading provider of business cloud communications and contact center solutions based on its powerful Message Video Phone™ (MVP™) global platform. More flexible and cost effective than legacy on-premises PBX and video conferencing systems that it replaces, RingCentral empowers modern mobile and distributed workforces to communicate, collaborate, and connect via any mode, any device, and any location. RingCentral offers three key products in its portfolio including RingCentral MVP™, a unified communications as a service (UCaaS) platform including team messaging, video meetings, and a cloud phone system; RingCentral Video®, the company's video meetings solution with team messaging that enables Smart Video Meetings™; and RingCentral cloud Contact Center solutions. RingCentral's open platform integrates with leading third-party business applications and enables customers to easily customize business workflows. RingCentral is headquartered in Belmont, California, and has offices around the world.
