

PATIENT SCHEDULING FRAMEWORK

This free downloadable provides a framework for efficiently scheduling patients to avoid no-shows and boost patient retention. Streamlined patient scheduling improves patient satisfaction and increases profitability. This patient scheduling framework provides guidelines for developing a positive, engaging, efficient patient scheduling experience.

A HITRUST CSF Certified cloud communications system is at the heart of any successful patient scheduling framework. RingCentral's cloud communications platform ensures the highest levels of ePHI security while delivering convenience and reliability for your staff and patients.
