# RingCentral

# Hardware Partner Program

RingCentral is a Gartner® Magic Quadrant™ leader, providing 430k+ companies with the Unified Communication and Contact Center software they need to collaborate and communicate, wherever our customers are and whichever device they are using. Our hardware partners are critical to that mission.

RingCentral's Hardware Partners access:

Brand recognition across 430k+ companies in 40+ countries

15k+ channel partners and sponsorship opportunities

Coordinated support to deliver on CX

Foundation to deepen relationship with RingCentral

## How to become a RingCentral Hardware Partner

1.  Register your interest here; compatible hardware types are updated regularly
2.  Complete the RingCentral Hardware Partnership agreement
3.  Receive test account credentials and integration guide for device testing
4.  Contract with and pay a fee to third party lab to certify devices
5.  Provide RingCentral with brand kit
6.  Become official RingCentral Hardware Partner

### Hardware Partner Requirements

- Ensuring ongoing compatibility
- RingCentral landing pages on partner websit
- Maintaining up-to-date configuration and user guides
