## Treat all digital conversations equally

The RingCentral Engage Digital platform makes it easy for companies to meet customers wherever they are online. Through a single agent desktop for all digital conversations, RingCentral Engage Digital enables agents to provide a consistent user experience through:

- Unified user identities across multiple channels
- Deeply integrated reporting and analytics
- A smart & automatic distributing engine

## Merge multiple profiles to a single identity

RingCentral Engage Digital makes it easy to merge disparate customer profiles from multiple interactions and channels into a single identity. By providing a complete view of customer interaction history, the platform improves first contact resolution. Integrated with CRM tools, the digital interaction platform creates a personalised experience for customers.

## Support customers on their channel of choice

Whether your customers choose to communicate via social media, live chat, mobile apps, or email, RingCentral Engage Digital provides the tools necessary to support them.

The platform helps you better balance resources—and reduce the learning curve by utilising a single agent desktop across all channels, including:

- Messaging: Apple Business Chat, Facebook Messenger, WhatsApp, and others
- Live chat and email response management
- In-app messaging: iOS® and Android™
- Social media: Facebook®, Twitter, YouTube™, Instagram, etc.
- Consumer review platforms: Google My Business™, Google Play™, etc.

## Monitor and optimize performance

RingCentral Engage Digital helps to optimize digital service levels with actionable live analytics. Supervisors and business leaders can view metrics and reports across every channel to ensure consistent customer service.

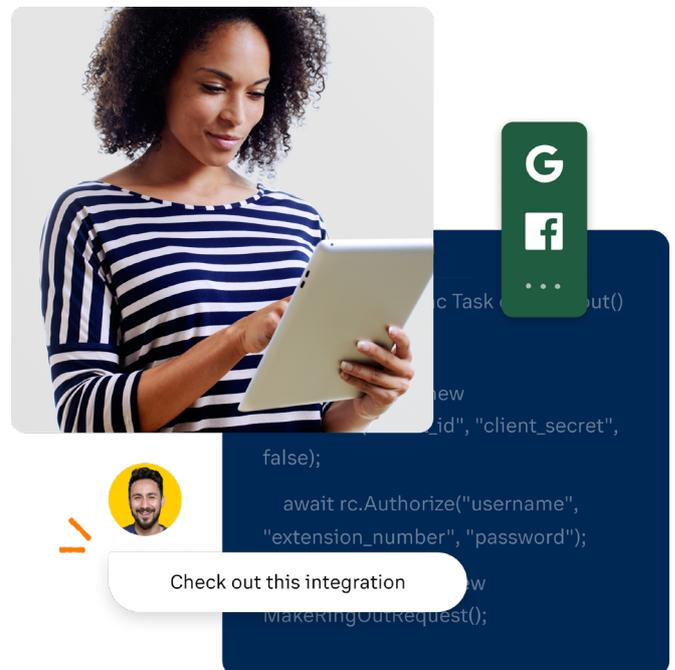

## Engage with your customers at scale

The RingCentral Engage Digital platform is built with multi-criteria and AI analysis to provide fast and right routing to contact center or local agency.

Messages are analysed and automatically allocated to agents increase their productivity and customer satisfaction. RingCentral Engage Digital also improves response times and productivity with behavior context, co-browsing, knowledge base, and auto-suggested responses.

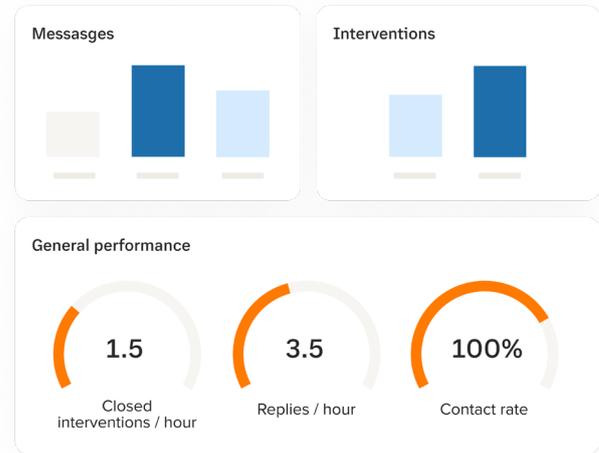

## Seamlessly integrate essential business

RingCentral Engage Digital provides open APIs, which easily integrate with leading CRMs and other backend systems, business process apps, reporting tools, chatbots, and AI systems.

## Managing traffic peaks and allocating resources

RingCentral Engage Digital will allow agents to handle multiple channels and increase their productivity. As agents are channel-agnostic they will be able to manage the flow of messages. Resources are better allocated to handle traffic peaks easily and reduce the backlog. Agents can answer quicker and increase customer satisfaction.
